To whom it may concern,  
Hi, I am a XM Satellite radio subscriber. I am here to urge you to please REJECT the NAB's petition 04-160.

Ever since I activated my XM radio service, I enjoyed every minute of it. I paid for the service and I get great sound quality with programs of my choice. XM Instant Traffic & Weather helped me a lot, especially living in Los Angeles and the surrounding area. Since I paid for the service. I know that I could switch the that channel and get the information I want right away. Local radio station doesn't do traffic or weather report as often. Most frequent ones are about once every 5 minutes. In LA traffic, 5 minutes does make a big difference. There is NO replacement from the local radio over XM radio.

XM radio is a paid service. The National Association of Broadcasters should not have the right to decide what I am permitted to hear. Traffic and weather channel is informational, they are not associated with violence, sex, foul language in any way, shape or forms. NAB should pay more attention on those issues than telling me what information I can get.

Please REJECT the NAB's petition 04-160. Thank you for your time!

Sincerely yours,

Edward Hsieh
